28 September 2012

Global VSAT Forum

Dear Mr. Riaz Lamak,

Thank you for attending the Pacific Endeavor 2012 (PE12) Workshop at the Changi C2 Centre, Singapore. Your participation during 6-17 August 2012 helped make this event a great success.

PE12 was the capstone workshop for the 2012 Multinational Communications Interoperability Program (MCIP). The purpose of the workshop was to test the interoperability of participant nations' communications systems; to test and validate the effectiveness of the Standard Operating Procedures (SOPs); and the collaboration tools we have developed to support Humanitarian Assistance and Disaster Relief (HADR) operations.

Your support was essential to the success and growth of the program. The partnership that continues to grow between your organization and the militaries of the participating nations will certainly improve our common efforts in Humanitarian Assistance and Disaster Relief operations.

The Pacific Senior Communicators Meeting for PE12 was also held during the second week of PE12, 13-17 August 2012. During this week the participant nations' senior communicators held discussions on strategic communications topics relevant to the Asia-Pacific region, participated in the first ever Knowledge Endeavor, and provided strategic guidance to further develop the program. Thanks to you, the Pacific Senior Communicators Meeting was another success.

Again, thank you for your participation and support. LtCol Dave Joerres and the PACOM team look forward to continuing to work with you to improve communications interoperability.

Sincerely,

A handwritten signature in dark ink, appearing to read "H. Justin Pickett", is written over the typed name.
